EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Trenton Roche on September 9, 2008.

The application has been amended as follows: in the Claims:

Claim 35: at line 4, after "means selects" delete "the program" and insert -- the one of the second programs --.

Claim 38: at line 4, after "using the selection means, for" delete "the program" and insert -- the one of the second programs --.

2. Claims 24-44 are allowed.

3. The following is an examiner's statement of reasons for allowance.

The prior art of record, i.e., Noriya, Shuji, Specifications for Service Information in Digital Video Broadcasting Systems ("DVB") and Periyalwar (U.S. Patent No. 6,611,695 currently made of record), taken alone or in combination, fail to teach or suggest the following features when these features are considered in combination with the remaining features of independent claim 24:

a transmitter that transmits:

a first transport stream in a first service area, the first transport stream including:

links between first programs in the first transport stream in the first service area and second programs in one or more transport streams in a second service area, and priorities for the links;

a receiver that receives:

the first transport stream including the first programs, the links, and the priorities for the links from the transmitter, and automatically selects one of the second programs that corresponds to one of the first programs when the receiver moves from the first service area to the second service area, wherein the selecting includes:

using the links to locate the selected second program in the one or more transport streams in the second service area when the links identify a match between one of the first programs and one of the second programs, and

searching the second programs in order of the priorities, when the links do not identify the match; wherein the second service area is adjacent to the first service area, and one or more second programs in the second service area are different from one or more first programs in the first service area.

The same reason for allowance as indicated above is also deemed applicable to independent Claims 27, 34, 40 and 44 which recite similar aforementioned features.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
